Print Less @ Furman

The Academic Computing Committee and Information Technology Services, with discussions with Student Government (SGA), are instituting a new print management system for all computer labs.

- Quota for all students will be **500 pages per semester** (250 pages in summer)
  - A discount applies for duplex printing so you effectively get the 2\(^{nd}\) page at no charge to your quota. This will give you 1,000 prints per semester if you duplex.

- All lab computers will have a program installed to display your remaining balance

- If you have less than 100 pages remaining in your quota, you may request an additional 100 pages at the IT Service Center in the Library

- A special PIN can be obtained for student club printing.

This new system was put into place to reduce the waste being generated in many of the computer labs on campus. Studies at other universities showed that up to 40% of printouts go unclaimed and Furman is no exception. Over 3.3 million pages were printed in Furman computer labs last year consuming over 41 trees, 33,000 kilowatts of electricity and 1,800 cubic feet of landfill and creating almost 4,000 pounds of carbon dioxide (environmental statistics from the Papercut software).

Please contact the IT Service Center at 864-294-3277 if you have any questions.

**Note:** At this time, there will be no per page charge for quota extensions. The quotas will be evaluated at the end of each academic year to determine if the quota should be increased or decreased or if a charge should be instituted for additional prints.
