Scanning a Mac with Trend Micro OfficeScan

1. Go to the top right-hand corner of the desktop, and single click on the Trend Micro icon.

2. Click Open Trend Micro Security.

3. Click the Scan button, then select Full Scan.

4. Allow the scan to run; heavy use of the computer during the scan could result in longer running times.

5. When the scan finishes, check to see if it is clear. If so, the process is complete. If anything was found, please contact the Service Center.
