Welcome to the Furman Software Installer Wizard! This application will setup the required software for you to gain network access while on campus as a student.

**NOTE:** You must have **ALL** of your Mac software updates installed before attempting to run this application. Failure to do so could result in faulty installation and configuration. **All non-Furman anti-viruses must be uninstalled as well, before beginning this process.**

1. Double click the Furman Student Software icon to begin the installation process. On the “Welcome to the Furman Student Software Setup Wizard” window click the “Next” button.

2. On the next window, click on the “Install” button to start the installation process.

3. A popup should appear, informing you that a reboot is required during installation, and asking if you are sure you wish to install. Click Continue Installation. (Please see graphic on next page.)
3. The installation process can take anywhere from five to ten minutes to complete. During that time, you might get a popup window that appears for a moment and disappears. Please do not attempt to launch any other applications or use the computer until the process has completed to avoid installation errors.

4. A window will pop up entitled “Please enter your Furman NetID.” Enter the information.

5. Another window will pop up and ask for your password. Please enter your network password in the field.
6. Once completed you will be prompted to restart your computer, select the “Yes, restart the computer now” option and click the “Finish” button to finalize the installation.

7. Once you have rebooted, if you have a message about computer enrollment, please follow these instructions. If not, skip to step 8.
   a. Click Next.
   b. Fill out the fields completely, making sure to use the format fu\NetID for your username. Click Next.
   c. A box should appear, saying Enrollment was successful.
8. Connect to the network. If you have Ethernet capability on your device, this is preferred. If you do not have an Ethernet port on your machine, connect to the FU-STUDENTS wifi network. You may have to enter your network credentials and accept the certificate if this is your first time connecting.

9. Once connected, open a browser to [http://bradford.fu.campus/registration](http://bradford.fu.campus/registration) and click the first link, for Furman University network users.

10. Fill out the form completely, using your NetID as your username. Click Download.
11. Find the software, and double-click the installer.
12. Click Continue.
13. Click Install.
14. A box will pop up, asking for your computer password.
15. After the software has installed, a box may pop up for your NetID and password. Enter these, and click Login.

16. The software will scan your computer to verify it meets the requirements for the network. Be patient.

17. Once the software has finished scanning, if your computer meets the requirements, you will see this screen.
