How to Map Your H-Drive: Mac OS

1. From the finder choose “Go” -> “Connect to Server”

2. On the “Connect to Server” screen enter the following information in the “Server Address” field, then click “Connect.”
   a. smb://tegile1/YourNetID
3. Enter the following information on the login window:
   a. Name = FU\YourNetID
   b. Password = Your standard Furman password

4. Click “Connect”, and your computer will open your H-drive in a new window.
