Moodle - Learning Management System

At Furman, we upgrade Moodle every two years in May which keeps our LMS current with recent updates and improvements. A Moodle course is automatically created for every class and populated with participants 5 days before the start of class each term. ITS Training coordinator Jean Childress or Instructional Technologist Corey Gheesling offer training sessions throughout the year and work with faculty on advanced topics. The Service Center will schedule assistance with Jean or Corey where appropriate. For routine assistance with Moodle, contact the Service Center at x3277 or service.center@furman.edu.

New to Moodle Training

Linked below are training videos, books and articles for self-directed learning. We have shared links that we like from other universities and from Moodle HQ. The information is applicable to our Moodle instance, but for assistance be sure to call Furman Information Technology Service Center x3277 :) Links include comprehensive video courses and quick tips. For Moodle training sessions on advanced Moodle features please contact Corey Gheesling x3794 or find him in Hipp 201.

- MoodleMoot Michigan Hosted in Mid-Michigan in January. Past recordings of the MoodleMoot provide interesting insight into creative uses of Moodle and shared experiences.
- Synergy Learning - UK Moodle Partner, Synergy Learning, has announced their new Youtube channel.
- What is Moodle - A Short explainer video about Moodle
- Furman Library provides access to many Safari Books. If you go to the Databases and search for Safari, you will find Moodle 3.1 publications are available to read online.

- While not the latest version, How to Use Moodle 2.7 PDF is linked below. This covers many recent features and changes.

Back up from coursesarchive and restoring to Moodle 3.1
