

Innovation and Collaboration

Several current and ongoing initiatives promote innovative instructional technology and collaboration within the academic program. ITS Staff are available to help faculty utilize new technology in the classroom, plan to implement new ideas, or help brainstorm new projects. For help contact the service center or your Department's Instructional Technologist

Humanities and Social Sciences- Corey Gheesling x3794

Sciences- Wade Shepard x 2276

Arts- Michael Vick x3645

Additionally, should you need help in establishing a collaborative workspace, contact your Instructional Technologist
