Guest Access

Visitors to campus may access the FU-Guests wireless network by following the instructions below. FU-Guests will give you 8 hours of access to the wireless network but you may follow these steps again to receive an additional 8 hours of access. If you have connected to FU-Guests previously or are not getting the sign-up page, you may need to open an Internet browser and go to any web page to start the sign-up process.

FU-Guests Instructions

- Open the list of available networks on your device
- Select FU-Guests from the list of wireless networks
- If you are not automatically redirected to this sign-up page, please open a web browser on your device and go to any page such as www.cnn.com.
- Click the top Start button to “Request a Temporary Guest Network Account”

- At the “Welcome Guest User page, complete the requested information

- A text message will be sent to your mobile device with a username and password and you will be re-directed to this page to login. Enter your username and password, click the box to agree to our terms and then click Login.
• The following screen will be displayed as you are connected to the guest network.

• After connection has been established you will get a message to close and re-open your browser. You now have access for the next 4 hours. If you need additional time you may follow this process again to receive a new password.
