

Home

Welcome to the PVS 101 Wiki Space!

Our mission is to better understand the multifaceted issue of poverty by combining reading, research, service learning, and personal experience of both our students and professors. The Poverty Studies Concentration was created in 2009 and 2009-2010 is the first school year the Introduction to Poverty Studies (PVS 101) is being taught year-round. Please comment, read, research, and add at your discretion. Let's solve the issue of poverty together!
